**Ufd167. Harrison's Wood (1.5 ha) TL 573360**

Harrison's Wood has a canopy of Ash (*Fraxinus excelsior*) and a few Pedunculate Oak (*Quercus robur*) standards over Hazel (*Corylus avellana*) and Field Maple (*Acer campestre*). There are no signs of coppice management. The rather poor ground flora is dominated by Bramble (*Rubus fruticosus*) and Nettle (*Urtica dioica*). Ancient woodland plants such as Remote Sedge (*Carex remota*), Spindle Tree (*Euonymus europaeus*) and Dog's Mercury (*Mercurialis perennis*) can be found.

Date of selection/last revision: 1994
